November 15, 2021

FEMA INFO LETTER 04/2021

Dear FEMA members

We are looking back to a special racing season 2021. After a very difficult 2020 where only a few small local races could have been held, we are slowly on the way back to a new normal.

The year 2021 still proved to be challenging and some races had to be postponed or cancelled. However, with the many local races hosted by the different clubs on their venues, it was possible for most of us to race and keep the fire for our hobby alive.

Without a doubt, the European Championship from 07. – 12. September 2021, hosted by the Polish Speed Model Car Association (PSMA) was the highlight of the racing season. After such a long time, it was a great feeling to meet so many of you and feel the friendship and passion for our sport. At this point, we would like to congratulate all new European Champions to their achievement; we all know how much work it is to be on top of each class. At the same time, we would like to thank the entire PSMA crew for an excellent and very professional organized European Championship. We all felt very welcome and enjoyed a great time in Poland.

Race Calendar 2022

Attached to this letter and soon published on www.speedmodelcar.com and www.speedmodelcar.org, you will find the DRAFT race calendar 2022. The race dates reflected in the DRAFT calendar were collected at the European Championship in Pila. As not all country representatives could give us exact dates for their races in 2022, the DRAFT calendar is not yet complete.

I would like to invite all country representatives' either to check the mentioned dates, whether they are correct or send us your planned race dates, not later than Sunday, 12. December 2021 to fema.board@speedmodelcar.org. It is intended to have a final race calendar by the end of 2021.

As we genuinely hope that the possibility for travels throughout Europe and the World will resume in 2022 we would like de-conflict the race calendar 2022 as good as possible in order to have bigger international events, with as many participants as possible, where friendships can be cultivated, expertise transferred and race battles fought. Therefore, we urge the member countries still to present their race dates, to consider the DRAFT race calendar and do not plan races at the same weekend where races on nearby racetracks are already planned.

Each racetrack should plan one (1) Grand Prix (GP)[™] which does not concurrent ether another Grand Prix (GP)[™] or an FEMA European Trophy (ET)[™] event at the same weekend.

European Trophy

At the Delegates Meeting 2021 (see attachment) it was decided to include six European Trophy races in the race calendar 2022 where points are rewarded according to the following rules.

Out of the six designated races (see DRAFT race calendar 2022), the best four will count for the final ranking. At the first five European Trophy races the following points can be earned in each class.

First place	10 points
Second place	8 points
Third place	6 points
Fourth place	5 points
Fifth place	4 points
Sixth place	3 points
Seventh place	2 points
Eighth place	1 point

At the last European Trophy race the following points can be earned in each class.

First place	20 points
Second place	16 points
Third place	12 points
Fourth place	10 points
Fifth place	8 points
Sixth place	6 points
Seventh place	4 points
Eighth place	2 points

All competitors of each European Trophy race will be included automatically but only with one model per class. Each of the six classes will be counted on its own. If two racers finish the European Trophy with the same amount of points, the one with the better ranking at the European Trophy final stage will get the better place. European Trophy Diplomas are awarded to the first five places in each class.

For further questions, please contact the FEMA board under fema.board@speedmodelcar.org.

World and European Championship 2022

The World and European Championship 2022 will be hosted by the Polish Speed Model Car Association (PSMA) from Wednesday, 07. September to Sunday 11. September 2022 in Pila, Poland, if no COVID-19 related restriction apply. Details will be published in due time.

Preview

Soon we are entering the Christmas season and with big steps, we are heading to the end of 2021.

We hope to see as many of you as possible at the Lucia winter cup race in Tallinn, Estonia held on Saturday the 04. December 2021.

Otherwise, we would like to wish you already now, a wonderful Christmas and a happy new year and we are looking forward to meet all of you in 2022.

Sincerely

Your FEMA Board
Fédération Européenne du Modélisme Automobile
